WORK EXPERIENCE

◆ VMO Nov 2021 - Present

Middle Front-End

- Working on Investment Fund project which is for people who want to research detail information about the company's funds to have a plan as well as how to invest effectively.
- Improved performance for website about 60% by caching data, preventing re-render component.
- Suggested and implemented upload file by using Socket.IO, provided good UX instead of waiting a big file uploading.
- Technologies: NextJS, Typescript, Ant Design, Tailwindcss, SWR fetching data, Hooks, Redux.

◆ SOTATEK Jan 2021 - Nov 2021

Junior Front-End

- Created a sports betting website which is blockchain website using Crypto to bet the sports match.
The website: <https://www.betu.io>
- Made a big dummy data for team member to implement component more easily instead of waiting API from Backend team.
- Developed good UI/UX for responsive website and had 22,000 views for the first releasing production.
- Technologies: React Stack (ReactJS, React-Router-Dom, React-Hook-Form, Redux, State Management, Functional Programming), Material-UI, Typescript.

◆ ABBY Sep 2020 - Dec 2020

Intern Front-End

- Designed, updated web application interfaces for the web work of ecommerce.
- Daily report and meeting.
- Technologies: AngularJS, HTML, CSS and Bootstrap.
